DEALING WITH DIFFICULT ISSUES
2014 SMA-SA State Members Conference

The Venue
The hallowed turf of Adelaide Oval has long enjoyed its status as an international symbol of prestige and with the new stadium being completed it is one of Australia’s most impressive venues - boasting picturesque views of the hallowed turf, the city, St Peter’s Cathedral and more.

With a nationally recognised line up of experienced speakers this is an ideal venue to hold the 2014 Members Conference.

Due to the redevelopment, there are currently only limited car parks in the northern parklands.

For further information on presenters and sessions visit:
